SUMMARY

I am a germane being endowed with the heart of love, care and sacrifice.

A graduate of Electrical Electronics Engineering (power option) who understands the Operations of a Transmission station. As a youth corp I tutored students for a debate competition organized in the LGA where I served and we won the gold medal. This feat spurred the school to set up its first physics laboratory. The achievement also gave rise to doubling of the students' population in the school. I have also successfully coordinated a mentoring/self-empowerment program scheme which helped eradicate teenage pregnancy from 75% high to as low as 20% and helped reduced early marriage. In 2015, I helped prepare a student for English competition who came out as a silver medalist in the state.

PERSONAL DATA

Date of Birth: 21st Dec, 1985

State of Origin: Osun State

LGA: Ori Ade Local Government Area

Home Town: Ipetu Ijesa

Sex: Female
